From the desk of the Candida Research team

Dear Fellow Battler,

My name is Margaret Pearson,

I'm a Former Candida & Yeast Infection sufferer, just like you.

Who teamed up with the yeast infection specialist and author of Natural Candida cleanse™ Luke Lister, to share our experience with the cleansing program that has relieved the pain of infection from thousands of lives.

I know first hand how this condition can turn from an annoying problem to a burden that quickly takes control of your life.

I bet you're pulling your hair out in frustration, trying to find a cure that works Effectively.

And mean time Your still Suffering from the **Constant Discomfort** of Yeast Infections and other Candida related symptoms.

I understand, I've been there Too.

If you give me just a couple of minutes of your time, I would like to share with you our journey of pain and suffering, and some important lessons that lead to the treatment that cured me, Luke and thousands of others.

So that you too can enjoy a life free of Candida and it's symptoms, Starting Today.

How Did He Discover This Secret

Putting up with the debilitating effects of a Candida overgrowth for 2 years, he was eventually diagnosed with a skin yeast infection that would not go away.

As time went by, the infection grew stronger and became more resistant to the creams, until they seemed to have no effect at all.

Growing more and more frustrated with the doctors failed attempts, he turned to the internet and tried just about every yeast infection home remedy available, with no regards for money or personal safety.

IMPORTANT!! There Are Some Very Dangerous Remedies Out There Including Bleach **DO NOT TRY THIS!** Please

Some of these will literally burn a hole in your skin - I myself tried straight Chlorine and can testify that the next week my rash was worse than ever.

* There Are Very Few Natural Remedies That Treat These Problems Safely And Permanently, And Not Just Mask The Symptoms.

When you are suffering from a yeast infection for such a long time, you cannot imagine anything worse.

This particular infection reoccurred for nearly 12 months.

The slightest exertion would aggravate it.

Fuelled by a Candida Overgrowth, the more creams he used the more resistant it became.

Drugs Where Only Making It Worse...

A natural approach was needed, something it could not build a resistance to.

At this point it took a realization of one important fact to turn it all around...

Candida Overgrowth Is The Root Cause For All Yeast Infections

Armed with this knowledge he embarked on the daunting task of finding natural ingredients that the Candida Yeast could not build a resistance to.

After some research, and much trial and error,

He discovered some easy home remedies that could be applied directly to the site of infection, for an...

Almost Immediate Relief.

That initial relief was an amazing feeling.

But realizing it was being fuelled from within the body.

He began tackling the Yeast Free Diet (*With a slight twist*)

In fact Did you know that...

Candida Albicans Is Nearly 80% Dietary Related

Simply stated, without undertaking some sort of diet control you will NOT cure the underlying condition of Candida, whether or not you use medications or supplements.

The simple truth is, the most important thing to rid yourself of Candida is diet. However diet focuses on only a few key elements...

- Starve the yeast of its food source (Sugar).
- Removing yeast & molds from the diet, preventing them from further contributing to the problem.
- Eat foods low in carbohydrates, that don't stress the digestive system.
- And eating organic foods, that are free from toxins, hormones, and allergens. These things will suppress the immune and nervous system.

As you can see, these elements would eventually starve the Candida to death...

But the process is very long!

like a game of cat and mouse, the Candida yeast will wait, until you make that one mistake that it can take advantage of, so it can spread its wings again.

Candida Yeast is very virulent, and it's not an easy task trying to out last it in a game like this.

This is why Candida needs to be attacked from more than one angle.

Don't get me wrong, if your only willing to attack it from one angle, then diet is the angle to attack it from. However, the nature of this beast causes most people to give up, or not stick to a strict enough diet.

This is why a Total Candida Cleanse is needed.

A Candida Cleanse is a system that incorporates a series of angles to attack from, with diet being the base or core of the program.

The beauty of this kind of system is...

Not only is it more effective while cutting down the time needed to fight it, but by having more than one angle to rely on, means that if you slip up, or aren't as strict as you should have been in one area, than your covered by the other angles.

Therefore the yeast doesn't get out of control from one mistake, wrecking all your hard work.

But what more do you need than diet?

There are so many products out there that claim to be the golden bullet for curing Candida and Yeast Infections.

I'm sure you've tried many of these yourself, I certainly did.

But what is it these Products are not Telling YOU...

Fact is 90% of all these products are simply glorified pro-biotic's or live bacteria, which boost your immune system, to try and help fight Candida in your intestinal system.

HELP, was the key word...

You see, while this is an important factor to killing off the infection, it cannot do the job by itself.

The only REAL way to get rid of a Yeast Overgrowth is to attack it from a multitude of angles,

NOT just try to starve it,

or pop a pill and hope.

You simply can't kill all of it off like this...

Worse still, some of the products simply mask the symptoms. And If the underlying cause is left untreated, further debilitating problems will occur that could lead to life long damage or even death.

Be very careful when searching for a cure...

Make sure you understand just what it is the product does, and how it works.

Sadly, conventional medicine doesn't offer much of a solution, In fact Antibiotics actually encourage the overgrowth of Candida Yeast.

As the only solution is not a pharmaceutical product, the obvious truths are often overlooked.

But this is one case where a natural approach is not only helpful...

But actually needed.

The good news is, you don't need any fancy medicine. As a matter of fact, the only REAL solution is a set of simple rules that don't cost a fortune.

Surprisingly enough though, there are very few systems, or rather none that I've come across, that actually include all 7 angles, that make a good Candida Cleanse.

Don't worry, I can present them to you, as an overall system that anyone can follow.

You see once Luke cured himself, I was quick to jump on the bandwagon and put it into action for my own reoccurring yeast infections.

The Truth Revealed At Last!

Results where almost instant, but I waited 6 months to make sure the yeast infection never came back.

I could barely contain my excitement to share my new found happiness with everyone out there, who like me, have been suffering from this horrible affliction for far to long...

So I teamed up with Luke, and got him to gather all his research and write down all his secrets, into a step by step format that anyone could follow.

A detailed treatment that not only deals with symptoms, but permanently deals with the root cause deep inside your body.

We've done all the research for you, and collected all the secrets into an easy to read e-book ready for you to download...

You know what?

You really can Feel this Good!

It Worked For These People

And It WILL Work For YOU Too!

"There is something very strange that is now happening, that we don't even dare to believe."

Dear Luke

It is Stefans mother who is mailing you from Sweden. I am trying to do all I can for him. He has been in a real bad shape this spring and summer, but now he is getting a lot better.

Thank you for your answer re Feta cheese, I am sure he will not try it, since he is on a very strong diet, that he have found on the web.

There is something very strange that is now happening, that we don't even dare to believe.

He has alopecia universalis, since he was seven years old, he is now 32. Guess what, his hair has started to grow after 25 years!! Can this really be true or is it a miracle!!

Have you ever heard anything like this??

Best regards
Barbro

"I read your e-book over 2 months ago, and I have to say I haven't felt this good in years"

I Can't believe my bloating and gas have gone,
Thankyou so much for this information.

I have tried so many things in the past, that I didn't think this would be any different.

I followed your system over 2 months ago, and I have to say that I haven't felt this good in years, I feel so alert and alive.

I followed this system to help me fight my Candida infection, but was so impressed with the other research you also reveal in combating the major symptoms, especially the bad breath methods in the bonus materials.

Your research is full of useful information, and explains what is going on and why things work.

Your help was much appreciated thanks again!

"I have suffered from almost all of the symptoms you mentioned in your book"

first of all, i would like to thank God for the gift of life He has granted you.

i would also thank Him for making it possible for me to know about your product on the internet.

My eyes are filled with tears of joy even as i write to you now.

As far as i can remember, i've lived with yeast infection all my life and haven;t succeeded in treating it.

Anytime i go to the hospital for any of the symptoms, i am given antibiotics which worsens the symptom. i have suffered from almost all the symptoms you mentioned in your book.

Since the year 2000, i have suffered from bad breath which gets worse and worse by the day and has defied all treatments.

it has destroyed my life completely as i can't get any job to do, whilst all my mates from school are in gainful employment. i also can get into any serious relationship. i go to church but i don't sing or pray because i don't want to offend anybody with my bad breath.

I can't even speak when i'm amongst people. it was really bad.

Everybody insults me when i speak because they think i don't brush my teeth well.

Luke, i can't write all I've been through but i know

you understand.

for over a year now I've been trying all sorts of solutions on the internet. i bought herbal medicines and some e-books but it only got worse.

In April 2009, i was searching for more treatments when i came across your site. You were the only one who drew the link between bad breath and candida and i knew i had a yeast infection so i developed more interest in your book. what's more, your offer was cheaper and with more books than the rest. it was the best book that was talking to me directly.

At least always remember that if for nothing at all, you have been an angel to me with your e-book. thank you very much.

I'm beginning to gain my self-confidence which i lost completely as a result of the bad breath and i know very soon i will be able to get a good job.

May God grant you perfect health, peace, long life and prosperity.

"Thank god, finally a treatment that actually works permanently.

I just wanted to thank-you for making this information publicly available, you have no idea how many different products)'ve tried to cure the most stubborn jock itch in history.

I tried all kinds of creams, and internet remedies.

But after reading your book I realized why they didn't work, and better yet, cleared up all visible symptoms in 6 days.

Thanks again

This Could Be Your First Day To A Better Future !

P.S Life is too short to try and come up with your own solution that could take you months or even years, and cost you hundreds or possibly thousands of dollars on useless products...

And meanwhile you'd continue to suffer every day

P.P.S Remember if you do nothing, nothing will improve and you will continue to suffer from the pain and embarrassment of your symptoms. Your condition will not go away on it's own.

If left untreated or improperly treated, it will result in worsening consequences to your health.
